THE SOUND OF SLMTA

Lyrics by Cheri and Elde Paladar, Sung by David C. Murray

******There's a kind of movement that is spreading all around
 It's a special kind of training t'wards a special kind of lab
 It's a sound of SLMTAns singing and it's ringing loud and clear
 It's about accreditation, that the SLMTA train is here!

******There's a kind of movement that is spreading all around
 Working on improvement projects, working all the year round
 With the workshops, mentor's visits and commitment to improve
 Achieving the tangible improvement, onward upward we will move!
 (The sound of SLMTA.....)

******There's a kind of movement that is spreading all around
 Let us act now together, we are accreditation bound
 We are ready and committed, professional to reclaim
 We will surely reach our target, better patient care's our aim!

******There's a kind of music that I'm hearing all around
 It's a special kind of music with a special kind of sound
 It's the sound of SLMTAns singing and it's ringing loud and clear
 It's the song of hope we're singing, because our 5 stars soon will be here!
