

Resolution 1

Recognizing the evolving needs of our Laboratories, *The SLMTA Program* will continue to evolve to respond to these changing needs, beginning with next version that combines both SLMTA 1.0 and 2.0
“Illuminating the Path to ISO 15189 Accreditation

Resolution 2

To reach the ASLM 2020 Vision of enrolling 2,500 Laboratories and accredit 250, ASLM shall launch the next “country driven” frontier where SLIPTA is institutionalized within ministries of health departments with ASLM retaining the overarching coordination role supported by strong collaborations with various stakeholders, donor agencies and implementing partners

Resolution 3

To ensure reliability and standardization to the SLIPTA audit process, ASLM shall review the SLIPTA audit process, the training, certification and maintenance of competency of certified auditors

Resolution 4

Recognizing the need to ensure uninterrupted testing service by minimizing equipment downtime, *countries* shall invest in capacity building of biomedical/equipment service technicians, implement Service Level Agreements and use strategic sourcing approaches like reagent rental/equipment placement

Resolution 5

To ensure reliability and standardization to the SLIPTA audit process, ASLM shall review the SLIPTA audit process, the training, certification and maintenance of competency of certified auditors
