

SLMTA song - Philippines

By Vladimir Sianghio, MD

[Verse 1]

In labs across the land, we raise the bar,
Chasing standards high, reaching ISO afar.
With hands-on skills and teamwork strong,
We build a future where labs belong.

[Verse 2]

From the orient pearl to distant shores,
SLMTA opens healthcare doors.
With mentorship and tools in hand,
We pave the way, we take a stand.

[Refrain]

Step by step, we learn, we grow,
Better diagnostics, the world will know.
Empowered hearts and minds combined,
One-five-one-eight-nine, a goal aligned.

[Chorus]

Together we rise, we strive, we lead,
For patient care, we meet the need.
Accuracy, trust, in every test we find,
Building better labs for all humankind.

[Verse 3]

Through quality systems, staff take flight,

Transforming care, bringing hope to light.
A journey shared, with lessons deep,
A promise to the world, we keep.

[Verse 4]

In every challenge, we find a way,
Improving lives through labs each day.
From small beginnings to global ties,
A future of health where success lies.

[Refrain]

Step by step, we learn, we grow,
Better diagnostics, the world will know.
Empowered hearts and minds combined,
One-five-one-eight-nine, a goal aligned.

[Chorus]

Together we rise, we strive, we lead,
For patient care, we meet the need.
Accuracy, trust, in every test we find,
Building better labs for all humankind.

[Outro]

So let us work, let's push ahead,
Where quality thrives and hope is spread.
SLMTA's vision, our guiding light,
For brighter tomorrows, shining bright.
